EDUCATION

University of Massachusetts Amherst Amherst, MA, United States <i>Master of Science in Computer Science</i>	<i>Expected May 2026</i> <i>GPA: 3.9/ 4.00</i>
University of Mumbai Mumbai, India <i>Bachelor of Engineering in Computer Engineering</i>	<i>May 2023</i> <i>GPA: 3.86/ 4.00</i>

PROFESSIONAL EXPERIENCE

Software Developer <i>Lab Systems Pvt. Ltd., India</i> <i>Tech Stack: Blockchain NextJS Python Git Cloudflare C++ SQL/NOSQL Flask API Networking Solution Design</i> - Engineered and deployed scalable software solutions for Cryptocurrency Forensics and Disk Forensics, enhancing processing speed by 30% and reducing system resource consumption by 15% - Led a team of 5 developers, optimizing workflows using Git and automation tools, which improved collaboration efficiency by 20% and reduced code integration time by 25%.	<i>Aug 2023 – Aug 2024</i>
--	----------------------------

Blockchain Research Intern <i>Lab Systems Pvt. Ltd., India</i> <i>Tech Stack: Blockchain Architecture Blockchain Node Hashing Solidity Smart Contracts Ganache IPFS</i> - Worked on tracing in real life cases worth more than USD 20 Million in cryptocurrencies such as Bitcoin, Ethereum etc. - Gained in-depth expertise in cryptocurrency forensics using advanced OSINT techniques and successfully trained a team of 12 professionals, leading to the development of a comprehensive one-stop forensic solution. Deployed and maintained 10+ blockchain nodes, including Bitcoin, Ethereum, and other cryptocurrencies, ensuring real-time transaction analysis for forensic applications.	<i>Aug 2022 – July 2023</i>
--	-----------------------------

Cloud Intern <i>Amazon Web Services (SLRTCE), India</i> <i>Tech Stack: Cloud Computing Services EC2 S3 RDS CI/CD Pipeline Lambda</i> - Completed a comprehensive AWS Cloud Service internship focusing on deploying highly secure cloud solutions - Delivered a final hands-on project demonstrating significant proficiency in cloud deployment and security best practices	<i>Jun 2022 – Jul 2022</i>
--	----------------------------

PROJECTS

RouteLLM <i>Tech Stack: Python, PyTorch, TensorFlow, Hugging Face Transformers, DistilBERT, CodeBERT</i> Engineered an LLM routing system that optimally directs prompts to models based on cost-performance trade-offs, reducing reliance on expensive models like GPT-4o while maintaining high output quality. Reduced inference costs by 70% by implementing three-tier model selection strategies, routing across different models
AI-Powered Recipe App <i>Tech Stack: Next.js, Tailwind CSS, FastAPI, PostgreSQL, GPT-4o, JWT, RESTful APIs, Pytest</i> Built an full stack AI-driven recipe generation platform enabling users to create personalized meals based on available ingredients, dietary preferences, and allergies, leading to a 40% reduction in recipe search time. - Utilized JWT authentication, RESTful APIs, and PostgreSQL, supporting 5+ social features (Comments, Bookmarks) - Optimized API and database performance, cutting query execution time by 30% with asynchronous FastAPI processing.
Medilog: A Blockchain-Based Pharmaceutical Supply Chain System <i>Tech Stack: Ethereum, Solidity, MERN stack</i> - Designed and deployed an extensive end-to-end pharmaceutical supply chain solution leveraging blockchain technology - Enabled tamper-proof tracking of medical drugs, ensuring trust and presented solution to the Indian Medical Association
Covid-19 Detection using Chest X-RAY <i>Tech Stack: PyTorch, Flask, SQLite</i> - Developed a web app for Covid-19 detection from Chest X-ray images, achieving 90%+ accuracy in classification. - Improved model performance, improving efficiency by 30% using data augmentation and hyperparameter tuning.

SKILLS AND CERTIFICATIONS

Certifications: AWS Cloud Foundations, CCNAv7 (Networks, Switching & Routing, Enterprise Networking) Programming Languages: Python, C++/C, Java, JavaScript, SQL, NoSQL, Solidity, HTML, CSS, Bash Script Frameworks & Libraries: Pandas, NumPy, Scikit-learn, Bootstrap, SQLite, Flask, ReactJS, NextJS, Node.JS, Matplotlib, TensorFlow, PyTorch, Keras, Matplotlib, SciPy, OpenCV, TailwindCSS, Elasticsearch Tools & Platforms: AWS, MongoDB, MySQL, Flask API, Cloudflare, Git/GitHub, VS code, MS Office, JIRA Technical Skills: Data Structures & Algorithms, OOP, Blockchain Architecture, ETL, Data Mining, Analytics & Visualization, Machine Learning, NLP, AI, Big Data, Relational Databases, Operating Systems, Distributed Systems Soft Skills: Leadership, Communication, Problem-Solving, Teamwork, Adaptability, Analytical Thinking
--

COMPETITIVE PROGRAMMING ACHIEVEMENTS

ICPC Global Rank: 365th (2020), 699th (2022)	Google Hash Code (2022)- Rank 1846
