

JEET SHARMA

+1 (413) 466-5844 | jeetsharma2112@gmail.com | Amherst, MA, USA | LinkedIn | GitHub | Portfolio

EDUCATION

University of Massachusetts - Amherst
Master's, Computer Science

Sep 2024 - May 2026
GPA: 3.9

University of Mumbai
Bachelor's, Computer Engineering

Jun 2019 - May 2023
GPA: 3.86

SKILLS AND CERTIFICATIONS

Skills: Statistics, Machine Learning, Databases, Data Analysis, Linear Algebra, Data Structures & Algorithms, OOP, Analytics & Visualization, Big Data, Blockchain

Languages: Python, R, SQL, NoSQL, C/C++, Javascript, Bash

Libraries and Framework: Pytorch, NumPy, Pandas, Scikit-learn, Docker, MS OFFICE, Git/GitHub, Matplotlib, MongoDB, Flask, NextJS, Node.js, Solidity

Certifications: AWS Cloud Foundations, CCNAv7 (Networks, Switching & Routing, Enterprise Networking)

PROFESSIONAL EXPERIENCE

Lab Systems (I) Pvt. Ltd.

Remote

Software Developer

Aug 2023 - Aug 2024

- Engineered and deployed scalable software solutions for Cryptocurrency Forensics and Disk Forensics, enhancing processing speed by 30% and reducing system resource consumption by 15%
- Led a team of 5 developers, optimizing workflows using Git and automation tools, which improved collaboration efficiency by 20% and reduced code integration time by 25%.

Blockchain Research Intern

Aug 2022 - Jul 2023

- Worked on tracing in real life cases worth more than USD 20 Million in cryptocurrencies such as Bitcoin, Ethereum etc.
- Gained in-depth expertise in cryptocurrency forensics using advanced OSINT techniques and successfully trained a team of 12 professionals, leading to the development of a comprehensive one-stop forensic solution.
- Configured and maintained 10+ blockchain nodes, including Bitcoin, XRP, and other cryptocurrencies, ensuring real-time transaction analysis for forensic applications.

Amazon Web Services

Mumbai, MH, India

Cloud Intern

Jun 2022 - Jul 2022

- Completed an intensive AWS Cloud Services internship, focusing on deploying and managing secure cloud solutions
- The program concluded with a project showcasing my skills in cloud architecture and security best practices.

PROJECTS & OUTSIDE EXPERIENCE

LLM-Router

- Engineered an LLM routing system that optimally directs prompts to models based on cost-performance trade-offs, reducing reliance on expensive models like GPT-4o while maintaining high output quality.
- Reduced inference costs by 70% by implementing three-tier model selection strategies, routing across different models
- [Link to project](#)

AI-Powered Recipe App

- Built an full stack AI-driven recipe generation platform enabling users to create personalized meals based on available ingredients, dietary preferences, and allergies, leading to a 40% reduction in recipe search time.
- Utilized JWT authentication, RESTful APIs, and PostgreSQL, supporting 5+ social features (Comments, Bookmarks)
- Optimized API and database performance, cutting query execution time by 30% with asynchronous FastAPI processing.
- [Link to project](#)

Medilog: A Blockchain-Based Pharmaceutical Supply Chain System

- Designed and deployed an extensive end-to-end pharmaceutical supply chain solution leveraging blockchain technology
- Enabled tamper-proof tracking of medical drugs, ensuring trust and presented solution to the Indian Medical Association
- [Link to project](#)

Covid-19 Detection using Chest X-RAY

- Developed a web app for Covid-19 detection from Chest X-ray images, achieving 90%+ accuracy in classification.
- Improved model performance, improving efficiency by 30% using data augmentation and hyperparameter tuning.
- [Link to project](#)

COMPETITIVE PROGRAMMING ACHIEVEMENTS

- ICPC Regional Rank: 365th (2020), 699th (2022) • Google Hash Code (2022)- Rank 1846

PUBLICATIONS & PATENTS

- Research Paper: "Lung Disease Detection using Chest X-Ray" IRAR (Impact Factor: 7.17) [paper-link](#)
- Patent: MediLog- (Granted), German Patent File No - 20 2023 102 823.3 , Date – 19 September 2023 [patent-link](#)
